Dolphin watching is a daily attraction in Pamilacan Island.  
Lucky ones have a chance to see Sperm Whale and Bryde's Whale during the month  
of March, April, May and June.

Highly skilled spotter will accompany all trips, which serve  
as guide in looking for the majestic creatures in their natural habitat.

This was packed mainly to help the fishermen of Pamilacan Island whose main source of income use to be catching dolphins, Bryde's whales, whale sharks and manta rays.
